

# Orga Systems.

#1 choice for real-time charging and billing

**\_ we enable growth**

# initiator

## setting benchmarks ■

Historically, Orga Systems has a consistent and strategic focus on real-time based solutions for customer billing and administration in mobile telecommunication services. Today Orga Systems' convergent real-time charging and billing portfolio enables profitable business for Telecommunication Companies, Mobile Finance Institutions and Energy Suppliers.

Orga Systems' products and consulting services are designed for living in a connected world: scalable architecture with more than 150M subscribers, outstanding performance, lowest rating latency with less than 3.9ms and consequent customer-centricity ensure reliable access to any kind of next generation mobile services.

To us thinking globally and acting locally means delivering premium consulting services and brilliant support offerings where they back our clients most efficiently. With the establishment and expansion of efficient subsidiaries and development centers, we unreservedly profess our commitment to put closeness to current and prospect customers into practice.

Worldwide 40+ customers rely on Orga Systems and achieve competitive advantages in their industry: reduced OPEX, real time-to-market, short-termed ROI as well as beneficial access to new value chains and revenue streams – saving hard ware costs by up to 33%.

# #1 choice for real-time charging and billing ■

Orga Systems' high-performance database, InCore®, which has been developed especially for processing large volumes of data, is currently the fastest data technology worldwide with regards to access speed. prepaid and contract customers. In addition to its real-time rating and charging capabilities, the solution addresses the full spectrum of operators' billing requirements.

An installation with more than 65 million active mobile subscribers on our real-time billing system is one of the most future driven installations of this category.
