

— OS. REVENUE —

— Orga Systems' SmartRevenue Suite™ for convergent real-time charging, billing and financial management offers a range of outstanding solution propositions as well as various deployment options. It provides leading real-time capabilities for all: prepaid, postpaid, hybrid and corporate subscribers. Real-time charging, policy management and bill shock prevention are inherent components and can be provided without redundant subscriber data management. On top of this, the SmartRevenue Suite™ provides excellent marketing and customer retention functionalities, as well as outstanding scalability and industry leading real-time performance.
